Summary

BTech Computer Science student (2026) specializing in backend and full-stack development using [ASP.NET](#) Core, Angular, and Azure. Experienced in building secure, cloud-deployed REST APIs with JWT authentication, role-based access, CI/CD pipelines, and real-world project architecture. Actively seeking intern/trainee opportunities to contribute to production-grade systems.

Projects

MultiTenant.ProjectManagement.API

Dec 2025 – Present

- Built a **Project Management REST API** using [ASP.NET](#) Core, **REST principles**, and **Entity Framework Core**.
- Implemented **JWT-based authentication** and **role-based access control** for secure user and resource management.
- Developed **CRUD operations** for projects and tasks with proper validation, error handling, and data consistency.
- Deployed the application on **Azure App Service** with **Azure SQL Database**, ensuring scalable and cloud-ready architecture.
- Automated **CI/CD pipelines** using **GitHub Actions** and tested API endpoints using **Postman** for reliability and correctness.

Multi-Tenant-Project-Management-UI

Jan 2025 – Present

- Developed a **responsive Project Management UI** using **Angular**, following component-based architecture and clean UI practices.
- Implemented **JWT-based authentication handling** on the client side with secure API integration and role-aware UI behavior.
- Integrated the UI with the [ASP.NET](#) Core REST API to perform real-time **CRUD operations** for projects and tasks.
- Configured **environment-based API endpoints** and deployed the UI on **Azure App Service**, enabling seamless frontend–backend communication.
- Automated **CI/CD deployment** using **GitHub Actions** and tested UI–API flows to ensure stability and performance.

Education

Graphic Era Hill University – Dehradun, Uttarakhand

Jul 2026

B.Tech (Computer Science And Engineering)

S.G.R.R. Public School – Bhaniyawala, Uttarakhand

Jun 2022

P.C.M

Marks: 76.3%

Skills

Framework & Languages: AngularJS, ReactJS, TypeScript , Bootstrap, JSON, HTML5 & CSS3

Backend & APIs: ASP.NET Core, Restful APIs, C#, Azure SQL Database , JWT Authentication, Web APIs

Cloud & Deployment: Microsoft Azure (App Service) , CI/CD pipelines using GitHub Actions

Tools & version control: Visual Studio, Visual Studio Code, GitHub, Postman

Certifications

Adobe India Hackathon – Unstop

Aug 2025

Languages

English (Professional), Hindi (Native)
